

## Senior Technical Accountant (100%; m/f/d)

**UNIQA Re** is a licensed reinsurer based in Zurich and part of the UNIQA Insurance Group. Building on a strong internal reinsurance foundation, we have been expanding our external reinsurance business since 2023. This growth journey goes hand in hand with the ongoing development of our business processes, data flows and system landscape, creating a unique opportunity to actively shape the future operating model of UNIQA Re.

**As a Senior Technical Accountant**, you will play a key role in this evolving environment, acting as the go-to expert for all financial and insurance technical accounting matters. You ensure seamless finance and accounting operations, support the Head of Finance and Performance Management in core responsibilities, and take ownership of critical tasks within the team. Beyond day-to-day operations, you actively contribute to group-wide initiatives and projects, positioning you as a vital link between precision, compliance and strategic impact.

### What to expect

- Leading role in the optimization and further development of internal processes, reporting structures, and automation
- Independent handling of special topics and assumption of (partial) project management in the accounting environment
- Overseeing the technical review and finalization of incoming and outgoing (retrocession) technical settlements, taking complex contract structures into account
- Managing key work packages for the quarterly and annual financial statements of the firm and the Group for local GAAP/OR and IFRS, including the coordination of complex balance sheet items
- Ensuring the correct and timely processing of payables/receivables as well as escalating and clarifying discrepancies with internal and external partners
- Monitoring and controlling international payment flows, including coordination with treasury and external business partners
- Quality-assured review, plausibility check, and posting of claims reports, including analysis of pattern deviations and trends
- Ongoing communication and technical contact person for international partners and internal stakeholders (underwriting, risk management, actuarial, business process management etc.) in German and English
- Support in the professional development of team colleagues (coaching/knowledge sharing)
- Agile organization in a strategically guided transformation, where adaptability and a strong commitment to excellence define the way of working

## We expect

- 5 - 10 years of professional experience in technical accounting in the reinsurance sector
- Completed business or economics degree, ideally with a focus on accounting/insurance is a big advantage
- Outstanding knowledge of accounting processes, balance sheet relationships, and technical accounting logic
- Experience with SAP, knowledge of FS-RI is a significant advantage
- Confident use of MS Office (especially Excel) and very good IT affinity
- Excellent written and spoken English and German
- High level of initiative, sense of responsibility, and enjoyment of cross-functional collaboration
- Ability to prepare complex issues in a manner appropriate for the target audience and provide technical support to junior team members
- Strong analytical thinking skills, structured approach to work, and high problem-solving skills

## We offer

- Dynamic, collaborative, and innovative work environment
- Competitive compensation and benefits
- Professional growth and development opportunities
- Attractive compensation and competitive benefits package
- Modern office in the heart of Zurich
