

Technical Accounting Specialist (SAP FS-RI) (100%; m/f/d)

UNIQA Re is a licensed reinsurer based in Zurich and part of the UNIQA Insurance Group. Building on a strong internal reinsurance foundation, we have been expanding our external reinsurance business since 2023. This growth journey goes hand in hand with the ongoing development of our business processes, data flows and system landscape, creating a unique opportunity to actively shape the future operating model of UNIQA Re.

As a **Technical Accounting Specialist (SAP FS-RI)**, you will play a key role in this transformation by ensuring accurate technical settlement, compliant reporting and high-quality claims and accounting processes. In close collaboration with internal and external stakeholders, you contribute to seamless operations while continuously improving processes and supporting the evolution of our organizational setup.

What to expect

- Contributing to key work packages for quarterly and annual financial statements for the firm and the Group according to Swiss GAAP/OR and IFRS, including coordination of complex balance sheet items
- Independently handling specialized accounting topics and contributing to (partial) project management within the SAP FS-RI and accounting landscape
- Conducting the technical review and finalization of incoming and outgoing (retrocession) technical accounts, taking complex reinsurance contract structures into consideration
- Facilitating the correct and timely processing of payables and receivables, including the clarification and escalation of discrepancies with internal and external partners
- Supporting the monitoring and coordination of international payment flows in close collaboration with Treasury and external stakeholders
- Performing quality-assured review, plausibility checks, and accounting of claims reports, including analysis of deviations, trends, and reporting patterns
- Acting as a technical point of contact for international business partners and internal stakeholders (underwriting, risk management, actuarial, business process management etc.) in both German and English
- Driving the enhancement and further development of internal processes, reporting structures, system functionalities and automation initiatives

We expect

- Completed business or economics degree, ideally with a focus on accounting/insurance
- Several years of professional experience in technical accounting in the reinsurance sector
- Very good knowledge of accounting processes, balance sheet relationships, and technical accounting logic
- Strong SAP experience, FS-RI knowledge required as a user and system support/administration
- Confident use of MS Office (especially Excel) and very good IT affinity
- Excellent written and spoken English and German
- High level of initiative, sense of responsibility, and enjoyment of cross-functional collaboration
- Ability to prepare complex issues in a manner appropriate for the target audience and provide technical support to junior team members
- Strong analytical thinking skills, structured approach to work, and high problem-solving skills

We offer

- Dynamic, collaborative, and innovative work environment
- Attractive compensation and competitive benefits package
- Professional growth and development opportunities
- Attractive compensation and competitive benefits package
- A Modern office in the heart of Zurich
