

Underwriter for Long-Tailed Lines (100%; m/f/d)

UNIQA Re is the licensed reinsurance platform of UNIQA Insurance Group, based in Zurich. In addition to our intra-group role, we are selectively building a high-quality external reinsurance portfolio, focusing on disciplined underwriting, technical expertise, and long-term profitability. Our ambition is to grow a diversified and analytically driven book, leveraging strong underwriting capabilities and targeted market access.

We're looking for a technically strong **Underwriter** with exposure to long-tail risks and ideally a background in the London Market (Lloyd's, company market, or broking). In this role, you'll go beyond origination, owning the technical core of underwriting through rigorous deal analysis, pricing, and structuring. As a key sparring partner to brokers and cedents, you'll help shape smart decisions, uphold underwriting discipline, and actively contribute to the strength and quality of our portfolio

What to expect

- Technical underwriting of reinsurance contracts across long-tailed lines (e.g. casualty, liability, specialty)
- Detailed review of submissions, including London Market documentation (slips, MRCs, bordereaux, claims data)
- Independent assessment of pricing adequacy, structure, and loss assumptions
- Identification and challenge of key underwriting risks (wordings, aggregation, reserving uncertainty)
- Structuring of risk transfer solutions (attachments, limits, exclusions, commutation features)
- Preparation of underwriting recommendations and input to internal decision-making (e.g. Underwriting Committee)
- Close collaboration with Actuarial, Risk Management, Claims, and Finance
- Contribution to portfolio monitoring and development analysis

We expect

- 3–5 years' experience in reinsurance underwriting or pricing (or actuarial role with underwriting exposure)
- Solid understanding of long-tailed lines (casualty/liability)
- University degree in actuarial science, mathematics, economics or similar
- Exposure to the London Market strongly preferred
- Strong analytical mindset with the ability to independently assess and challenge deals
- Comfortable working with imperfect/incomplete data and forming a reasoned view
- Structured, detail-oriented, and intellectually curious
- Fluent in English, German is a plus

We offer

- A role focused on technical underwriting and decision-making, not pure production
- Direct exposure to complex international reinsurance transactions
- Lean setup with close interaction with senior management and underwriting leadership
- High degree of ownership and visibility from day one
- Opportunity to contribute to building a growing external reinsurance portfolio
- Attractive compensation and competitive benefits package
- A modern office in the heart of Zurich

Ready to join our dedicated team? We look forward to receiving your application electronically via **recruiting@uniqare.ch**.

If you have any questions about this opportunity, **Andrea Magno**, Head of Actuarial & Underwriting Management (andrea.magno@uniqare.ch) will be happy to provide you further information. More information about UNIQA Re can be found at www.uniqare.ch.
